Finally warmer weather after a long cold winter gave volunteers a chance to focus on the "Canal Workers Shanty". Monday-Wednesday-Friday volunteers Mac Carlisle (center) and Al Auffart are placing rafters on the little log building.

Then the time for roofing with old fashion split cedar shake shingles.

WE'RE ON A TREASURE HUNT!

The Canal Association is always interested in receiving donated materials from the 1832-1876 period for use in our museum and to highlight the history of the Canal Era. Let us know if you have something to share or want to help!

MWF Volunteers Larry Batta (top) and Brice Crowel manage the shingling operation.

Brice Crowel starts the "chink and gob" operations to close the spaces between the logs and provide weather-tight protection for the Shanty. He is using wire mesh and mortar.

Larry Batta and Al Auffart prepare the door for installation. If you are interested in joining this three half day per week crew contact: dan.mccain@gmail.com.

When finished the Canal Worker's Shanty next to the Canal's RV Park will be available for rental by the day or weekend. Contact: reservations@canalcenter.org..

If you are interested in a particular portion of the canal and want to know the possibilities for that site's interpretation, contact Dan McCain at 765-412-4308.
